Risk

The sub-fund may invest in different type of assets. Investments may also include securities that may become subject to strong market volatility, In some cases, these securities may be very illiquid during periods of market uncertainty and may be sold only at a discount. Individual securities may, in such extreme market phases, suffer a total loss or a significant decrease in value. High losses of value at the level of the sub-fund can therefore not be excluded. More complete and specific disclosures about risks are contained in the respective offering documents. Before making any investment, an investor should thoroughly review the offering documentation to determine whether an investment is suitable for the investor considering his investment objectives
